

Replace ETHF-80-40-PP-05-E filter cartridge

TECHNICAL DATASHEET

Replace EuroTec ETHF-80-40-PP-05-E filter cartridges is made from depth fine PP nonwoven fabrics. This filter has a large diameter of 6 inch(152mm) , single open end. The inside to outside flow pattern ensure that all the particles will be intercepted at the inside of the cartridge.

FEATURES

- Pleated cartridge filter for increased filtration area.
- Increased dirt-holding capacity.
- Longer life-span, resulting in reduced operating costs.
- High particle removal efficiency.
- Easy installation and maintenance

PRODUCT SPECIFICATIONS

Feature	Unit	Specification
Diameter [D]	inch (mm)	6" inch (152mm)
Length[L]	Inch(mm)	20"(508), 40"(1016), 60"(1524)
Effective Filter Surface Area	M ²	3.5 @20", 7 @ 40", 10.5@60"
Max Allowable Temperature	° C	80
Max Pressure Drop	bar	2.0
Removal Ratings	µm	1, 5, 10, 20, 50, 100
